## About North Shore Land Alliance Walks in the Woods Program

The North Shore Land Alliance Walks in the Woods nature education program is a series of free, educational and interactive explorations. They are designed to guide visitors of all ages through Long Island parks and nature preserves, many of which are off the beaten path, for investigation while educating them about the wildlife and plants that call them home. Participants also gain an understanding and appreciation of local land conservation and its benefits to our food and water supplies and wildlife habitats and its connection to the strength and health of our communities.

Register online at [www.northshorelandalliance.org](http://www.northshorelandalliance.org). For more information about our Walks in the Woods program, please contact Jane Jackson at 516-922-1028.
