

North Shore Land Alliance's O'Neil Conservation Steward Internship Program

The Land Alliance's William C. and Joyce C. O'Neil Conservation Steward program delivers valuable conservation-related experiences to qualified college students interested in building careers in the protection of our natural resources.

Working with the Associate Director of Stewardship, Meghan Leverock, interns will be responsible for:

- Maintaining plantings as part of habitat restoration projects
- Trail building and maintenance
- Monitoring and removal of invasive plants
- Working with volunteers and staff in preserve management projects
- Leading educational nature walks and programs

Required Competencies:

- Commitment to environmental conservation
- Comfort with being outdoors in a variety of weather conditions
- Comfort with working both independently and as part of a team
- Research, communication and writing skills
- Ability to lift 50 lbs.
- An interest in conservation education
- Ability to get to and between job sites is a must!

Preferred Competencies:

- Ability to identify local flora/fauna species
- Experience with gardening/plant care
- Experience managing invasive plants
- Experience giving educational programs/presentations

Note: This internship is a field-based internship and will follow all COVID-19 guidelines put forth by New York State.

Duration: June 7th to August 12th

Hours: 32 hours per week / 10 weeks

Pay: \$4,800 for the duration of the internship

To apply please submit in a single PDF:

- Resume
- Cover letter detailing your interest in land conservation
- Contact info for two references

Please send applications and/or questions to
