North Shore Land Alliance 16th Annual Golf & Tennis Outing Honoring Hollis F. Russell

We thank you for your outstanding leadership and commitment to our natural world.

Hollis and Anne Russell

The Land Alliance is very pleased to honor Hollis F. Russell, who for over 16 years has been a guiding light in the organization's land conservation efforts. Hollis has been a leader in understanding the importance of protecting land and ensuring that the Land Alliance has been equipped with the resources needed to fulfill its conservation and education mission. Outstanding achievements include the decade-long endowment of the William C. and Joyce C. O'Neil Conservation Stewards program as well as facilitating the lead gift for the construction of the Land Alliance's first headquarters in the Tavern House at the Humes Preserve.

The Land Alliance is extremely grateful to Hollis for his commitment to the natural world and to the organizations engaged in these efforts.

PROUD TO SUPPORT THE NORTH SHORE LAND ALLIANCE.

About North Shore Land Alliance

Since 2003, the North Shore Land Alliance has permanently protected nearly 1,400 acres of land through acquisition and conservation easements and provides stewardship services for more than 600 acres of valuable natural areas. The Land Alliance also works actively in schools and outdoors to educate our community about the important relationships among land, water, locally grown food and recreational opportunities.

Mission Statement

To conserve and steward Long Island's natural lands and historic places, waters and environmental resources. Through education, outreach and volunteerism, we connect people to nature and inspire a community conservation ethic.

Vision Statement

To protect, in perpetuity, 10% (or an additional 800 acres) of our community's most important natural areas by 2030. That will ensure that Long Island remains a beautiful and healthy place to live, where all lives are enhanced by nature.

Climate Change Responsibility Statement

The North Shore Land Alliance acknowledges the harmful effects climate change will have on our community and the urgency of climate action. We recognize our responsibility as an organization to address climate change in our goals and programming. Through conservation of open spaces, conscientious stewardship of our lands and climate focused education, the Land Alliance works every day to mitigate and abate the harmful effects of climate change and restore our natural environment to ensure a sustainable future.
